Front Light

Ajustable Seat

Battery Capacity	48V 11.6Ah
Sensor Type	Torque Sensor
Max. Speed	40km/h
Gear System	Shimano 7-Speed
Motor	Brushless Geared 500W
Range	130km
Frame Material	Aluminum Alloy
Brake Type	Disc Brakes
Input Voltage	100 ~ 240V
Chainwheel	52T
Tire	CST
Tire Size	20*4.0inch
N.W. (KG)	25KG
Folded Size	95*51*78cm
Size	180*68*113cm
Certificates	CE, FCC

FAQs -Fiido M3

Q: What is Fiido M3 e-bike?

A: Fiido M3 is a bicycle with an electric motor offering power assistance to a rider in propelling the bike forwards. It means you can ride with adding measured powered assistance as you pedal the bike.

Q: Is Fiido M3 same as electric-powered motorcycles?

A: No, electric-powered motorcycles use a throttle to engage the power. Fiido M3 are pedal-assisted. This means you must pedal to get the motor to assist you.

Q: How heavy is Fiido Fiido M3?

A: 25kg

Q: What is the largest load of Fiido M3

A: 120kg

Q: How long does it take to charge an Fiido M3?

A: approx 7 hours

Q: How far can Fiido M3 go on full battery? *under good road condition and good weather condition?

A: Up to 130km

Q: How fast can Fiido M3 go? *under good road condition and good weather condition?

A: Up to 25km/hr in lock mode. And up to 40 km/hr in unlock mode.

Q: What is the motor power output for Fiido M3?

A: 250W

Q: How is Fiido M3 powered?

A: Fiido M3 is powered by a Lithium-ion battery system.

Q: Does pedalling charge the battery?

A: No

Q: How is the ride? What is the benefit of Fiido M3?

A: The M3 uses a torque sensor which gives you a better cycling experience than the speed sensor, which really magnifies your pedal power, makes climbing easier and makes less painful for your knees. Our bikes are fun and help you to explore more with ease.

Q: Do I have to pedal to get assistance on my electric bike?

A: Yes, you must pedal to get the motor to assist you or the speed will be less than 6km/h in pure electric mode.

Q: Can the e-bike go faster than the motor supports?

A: Yes, it can go as fast as you can pedal, the motor will stop increasing speed after reaching its max speed of 25km/hr.

Q: Can I ride with a flat battery?

A: Yes, you can still ride your E-bike like other regular bikes when there is no battery.

Q: Does Fiido M3 require any special maintenance?

A: Caring for Fiido M3 is similar to a regular bike. You need to keep the tyres inflated and the chain lubricated and check your bike regularly to change the worn-out parts.

Q: How do I store Fiido M3?

A: Lithium ion batteries should be stored at 10 to 25 degrees Celsius; battery life depletion may occur if left outside for prolonged times. We recommend storing them indoors away from direct sunlight, water, and heat.

Q: Can I ride Fiido M3 under any weather or road condition?

A: Unlike a regular bike, an e-bike is more sensitive to water damage. You should ride your e-bike under good weather conditions and smooth, even ground. You should not ride it during bad weather where excess water is expected.

Q: How many times can the M3 battery be recycled?

A: 1000 times.

Q: What is a special part of M3?

A: It's unique design, ATV tires, big battery capacity, foldable design, easy to put into the car boot and you can enjoy more outdoor fun.
