

The Model One E350 is the perfect city companion. The 700W peak power will propel you to your destination with ease and style.

Foldable Design

Press one button, and the stainless steel hinge system folds and locks in one smooth, satisfying click for easy storage.

Single-Piece deck

Made from machined aluminum with embedded silicon on the top surface for traction, it provides a combination of rigidity and comfort.

Built-in speed control

Just select your speed mode - beginner, intermediate, or advanced. This scooter's processor governs the top speed and acceleration and will remember your speed preferences so you don't have to.

Puncture proof tires

Provides the amount of shock absorption that lets you still feel responsive balance and the road.

Eco-Friendly

Unagi's Model One E350 electric scooter helps to reduce your personal carbon footprint

Single 350 watt electric motor in rear wheel

Allows you to quickly and easily reach speeds up to 15.5 mph

Weight capacity of 100 kgs

Enables safe riding
